SHOUT IT TO WIN IT!

Yell "BINGO!" loud enough for the caller to hear. The game only stops when the caller repeats "BINGO."

Tablet wins? You still need to shout "BINGO!" The game won't stop just because your tablet makes noise.

Watch your tablet closely. If it freezes or falls behind, raise it in the air and a floor assistant will refresh it.

Keep voices low during play and BINGO checks. Whispering helps everyone stay focused!

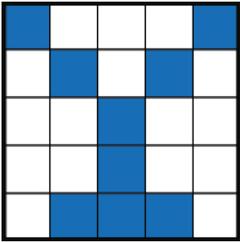

All BINGOs must include the last number called, unless you're the only winner.
